

**Japanese Unexamined Patent Publication
No. 288589/1992 (Tokukaihei 4-288589)**

A. Relevance of the Above-identified Document

The following is a partial English translation of exemplary portions of non-English language information that may be relevant to the issue of patentability of the claims of the present application.

B. Translation of the Relevant Passages of the Document

See also the attached English Abstract.

[0040] Fig. 15 is an alternative form of example shown in Fig. 12 which is adapted so that a temperature detection of liquid crystal is performed as in the example of Fig. 8, and the weighting coefficient α which is a high-frequency emphasizing parameter is controlled to vary in accordance with the output of the temperature detection.

[FIG. 1]
